Axxis Technology Group Ltd
Directors' report
31 December 2015

The directors present their report, together with the financial statements, on the company consisting of Axxis Technology Group Ltd (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2015.

Directors

The following persons were directors of Axxis Technology Group Ltd during the whole of the financial half-year and up to the date of this report, unless otherwise stated:

Peter Kazacos - Chairman
Campbell Corfe
Chris Calamos

Principal activities

During the financial half-year the principal continuing activities of the company consisted of an investment company continuing a wider search for acquisition opportunities that would enable the company to re-commence active trading in a profitable business sector(s). In addition, the company provided executive professional services to customers.

Review of operations

The loss for the company after providing for income tax amounted to \$248,225 (31 December 2014: \$675,071).

As outlined in the company's report as at 30 June 2015, the Directors had determined the best course of action for the company was to seek a suitable company that was adequately capitalised with which to merge its operating business. To that end, over the last six months, the Directors have conducted an extensive search of the market and performed detailed reviews of numerous companies that met the targeted criteria.

In one particular case, there was extensive due diligence performed on a company which also included a thorough legal review and negotiation resulting in a non-binding heads of agreement being executed. Unfortunately, this opportunity did not proceed further as the target company withdrew from the transaction. The Directors continue the search for a suitable company to acquire.

During the six months to 31 December 2015, the company provided executive professional services to customers resulting in revenues billed totalling \$36,630.

As at 31 December 2015, the company had:

- no loans owing and no employees;
- a cash balance of \$428,157;
- current liabilities of \$28,644; and
- a trade and other receivable amount of \$23,294.

Current operating costs consist of administration costs, consultant costs in relation to professional service revenues, compliance and advisory costs in support of the company's objective to acquire suitable business assets that would add significant value to Axxis shareholders.

Significant changes in the state of affairs

As part of simplifying the company's structure, the Directors took a decision to deregister all of the company's subsidiaries as they were all inactive entities with no net assets. Such deregistration took effect on 30 September 2015.

There were no other significant changes in the state of affairs of the company during the financial half-year.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410: Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Axxis Technology Group Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Axxis Technology Group Ltd is not in accordance with the Corporations Act 2001 including:

- (i) giving a true and fair view of the entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- (ii) complying with AASB 134: Interim Financial Reporting and the Corporations Regulations 2001.
